## **Special Messages from our Clients and Consultants**

---

"I have faithfully used Aloette Skin Care and Cosmetic Products for a number of years. The thing I love most about the Aloette Company is that **they are constantly updating their products to give the most maximum benefit to skin care**. Even though the company is US based, Christie, the owner of the company even listens to our Canadian needs, such as the Maximum Moisture Cream, which is an absolute must for our Canadian, winters!!

**All the products do exactly as promised!** And the price, wow, **you will not find this quality any cheaper!!!!** Another wonderful thing about some of these products is the versatility of their uses. The Essential Cleansing Oil is a must for night time cleansing, but it can also be used in water to soak hands and feet to give you a professional manicure/pedicure result. It's also great in a bath for dry skin and your hair!! The Nutri-Hydrating Mist is also a must for everyone! Not only can it be used on the face, but all over the body, especially those hard to reach places such as the back. It works great on sunburn (90% Aloe!) or those hurts that you just don't want to touch.

There are too many multi-purpose products to mention them all. The cosmetic line is just fabulous and is produced with nutrients that work with the Skin Care line. If you have never tried the cosmetic line, do it the first chance you get, **you will not be disappointed**. As you can tell, **there is not one product that I have tried from Aloette that I have been disappointed with!!!** I will always be a faithful customer!!"

*-Sheree Wood*

*(What a terrific Ambassador for Aloette! Sheree always ensures her friends have multiple opportunities to enjoy Aloette like she does! Thanks for all your in home shows, and all your ongoing support! Sheree has since joined as an Aloette Beauty Consultant, to help service her friends & family personally)*

---

**"It feels good to do good for yourself.** Sometimes the simplest things we do in life, the things, once we are in the habit of doing them, we almost take for granted; prove to be the things that make us feel the best about ourselves... Like

- regular exercise
- eating right
- maintaining a healthy weight
- reading positive materials
- getting the rest we need every night
- growing friendships with people who are on the side of our dreams
- practicing good personal hygiene
- visiting our doctor and dentist on a regular basis
- and taking good care of our skin

I have been living with the secrets of Aloette products on my skin for almost 20 years. Sheri and I met many years ago and began a friendship, a communication, a support for one another that has continued all these years. Why did I try Aloette products? Well, I was in my 20s and was jumping from one skin care system to another, feeling overwhelmed by contradictory information, tired of lack of results, and frustrated by having no consistent human being to talk to about the products I

was trying...(there I am in a busy department store, trying to (in a whispered voice) explain to a perfect stranger the strange pattern of pimples that seems to develop across my forehead around that "time of the month" - how my skin seems to toss me back in time to grade nine days with a lovely arrangement of breakouts on my face)...I can't help sense that she doesn't really care. So, I did a reasonably logical thing and asked someone with great skin what they used. The person I chose was a friend of mine whom I worked with at the time. She had flawless skin. I thought to myself, she's got to be doing something right. She told me all about Aloette products. I attended her Aloette show, where she had arranged that I would be the model who got the facial and makeover. I **was so impressed with the way my skin FELT that evening, that I bought a few skin care products to start and booked a party.** Well, the rest, as they say, is history, **20 years have gone by...**

- Twenty years of washing my face EVERY morning and EVERY night with Aloette skin care products.
- Twenty years of applying hand and body silk and other products every day all over my skin.
- **Twenty years of being able to wear a little makeup or a lot of makeup and the colour looking great and staying put because I have healthy skin underneath.**
- **Twenty years of having people ask me what I use on my skin.**
- Twenty years of only dealing with very minor "time of the month" breakouts, but knowing that I have the tools to deal with them.
- **Twenty years of my husband touching my skin, still astounded at how soft it is.**
- **Twenty years of having an Aloette beauty consultant and friend to ask questions to** about skin breakouts, about how my skin has changed during the years, about how stress has attributed to the condition of my skin...**and getting answers based on expertise, on knowledge, on knowing MY skin, and on CARING about me.**
- **Twenty years of people not believing my age,** once I've told them, after they have guessed up to ten years younger. I'm actually 72 (ha! ha!)

Now, don't get me wrong, I'm a realist, I know that I'll most likely have wrinkles when I'm 80 and that's ok. I'm ok with growing old. I figure that the alternative is kind of "final". But if my skin continues in this fashion, I won't look 80 until I'm 90!! I'm not talking about VANITY here, ladies. I'm not talking about needing to look like a computer-enhanced model in a magazine. I'm not talking about wanting to look unreal.

I'm talking about **looking your best, so that you can find the confidence in yourself to BE YOUR BEST.** Many times in life, we feel we can't do our best because we're not taking care of ourselves. We're exhausted, we're overstressed, we're not exercising, and we're eating junk all the time. When we look in the mirror, all we see are shades of grey.

Think about a teenage girl or boy with acne. If you could wave a magic wand and give them clear skin, do you expect you would see an immediate improvement in self-confidence? In attitude? In acceptance of oneself? Indeed you would!

**Now take a woman, YOU, in her 20s, 30s, 40s, 50s, 60s and beyond.** If that woman could use products that she trusted to give her results that consistently continued to make her skin glow and were available by telephone, by fax, by email or via the Internet from someone she knew and trusted, do you think you'd see an improvement in attitude? In self-confidence? In acceptance of oneself? I know you would.

**Using Aloette products is one more way you can be good to yourself.** There is no doubt that ALOETTE products produce great results on your skin. But the ALOETTE family of people and support also produces self-confidence and motivation, to get you on a path of self-growth.

So, whether you decide to commit to yourself by making sure you wash your face with Aloette products every morning and every night, or you decide to host a show and share the products with your friends and family (and get free stuff for yourself!!), or you decide to take the step to become a Beauty Consultant, learning all about the business and using your personality to share information

with other ladies, **YOU WILL FIND the experience with Aloette constantly motivating, constantly positive and constantly worthwhile.** What corporate experience gives you that everyday?

**In my experience, Aloette has been a "sigh of relief", a trusted source, a place I can rely on for not only making me look and feel my best, but my family and friends too.** It is an experience of being constantly spoiled, for making me feel special, and for always representing me to my friends and family in a professional, and kind way. I wish you an open mind and patience to give Aloette a try and **give yourself the time to be beautiful.** You won't be disappointed, no matter how you decide to incorporate it into your life."

*-Lynn Pineau (Wow!)*

---

"I have been using Aloette products now for several years (I wish I'd started earlier!) and can attest to their quality. I've noticed a **dramatic change to my skin - for the better.** Best yet are the number of people who ask me what products I use on my face! You can't get better than that. As good as the product is I'd also like to comment on the service you receive from Sheri and her group. This Organization truly understands the meaning of the phrase "customer service". Nothing is too much for them. One of the things I like best - when you order product from a home party it arrives already packed up. I've hosted many home parties where I have to bundle the products up to be ready to distribute them to the people who purchased them. That's a pain I can do without. All in all, great products sold by a terrific group who are knowledgeable, as well as just plain fun to deal with."

*-Chris Sutherland (grateful hostess)*

---

"Since I first started using Aloette's product many years ago, **my skin has been perfect** to me. Once and a while I will try a use a store bought brand and I am never satisfied with the results, and I go back to my Aloette Skin Care Program. I have people tell me that I lie about my age (60), and they don't believe me when I tell them that I have three children aged from 39 to 27 years of age. They think my grandchildren (6 of them) are my children. When I don't use my skin care products my face tells me. It says," I am going to wrinkle on you if you don't give me my skin care treatment." I LOVE ALOETTE!!

*-Mrs. Ruth Griffin*

---

Since I started using Aloette and becoming a beauty consultant... I have been so impressed by the effect of Aloette products on my skin! Although time marches on, my skin has never been better - it is much softer and smoother than it ever was in my 30's. I had occasional blemishes and dry patches, and unevenly toned skin prior to using Aloette, but now my skin rarely has any problems at all. I am so happy with these **beautiful products** that I wouldn't even bother to try anything else! I also love the cosmetics! I find I am using makeup more often than before - probably the artistic side in me loves to experiment with these great colours, but the results are so **natural** and professional looking. On the occasion when I don't put any makeup on, my skin still looks great!
